

We, the People of Big Bear

We, the People are serving you with these documents. It is our intent to provide you with information that will contribute to your knowledge regarding “rights” protected by the Constitution of California (1849) and the Constitution of the United States.

Both Constitution provides, We, the People, the freedom as it is a body of fundamental principles according to which a State is to be governed. Its sets out how all the elements of the government are organized and contains rules about what power is wielded, who wields it and over whom it is wielded in governing the country. It can be seen as a contract between those in power and those who are subjected to this power and its We, the People who have the power. It defines the rights and duties of citizens, and the mechanisms that keep those who serve us in check.

We, the People have been following this chain of information and research, since 2019. Every stone we turned lead us to more and more information. This was not good and deeply concerning as the realization that we are “in fact” not being told the “truth”.

Our community members believe in this effort, this cause, and will not stop until our “rights” are truly known in the community as set forth in the Constitution of California (1849) and the Constitution of the United States. Their deep passion for this community, focusing on the children compelled them to “whistle blow”, and confirm edicts in our State and Federal Constitutions.

Unfortunately, the district, under the auspices of benison funds (money), violated the very “rights” of our children, our principals, our teachers as our administrators accepted Federal Funds with continual masking, testing, and the looming threat of vaccinating our children (with a 99.8% survival rate), which was the conditions for those funds.

This letter is to remind those in our community to ALWAYS question “perceived” authority on all levels. The people that are to “serve the people” DO NOT have authority over us. It is very apparent that the education regarding the power of “our rights”, should be referred to as grossly negligent, as these Constitutions, have been conveniently ignored an many cases removed from the educational system. Why?

We are good loving, honest, trusting people! Did you stop and think that we are being misinformed, with false hegemonized information, and unlawful information? We are a country of laws. Show me the law, not perceived laws. NO LAWS passed can abridge the Constitution of California or the Constitution of the United States, rendered null and void.

I encourage you to do your own research! “All things hidden shall be revealed” Luke 8:17

We, the People are the rightful master of both the Congress and the courts, not to overthrow the Constitution but to overthrow the men who pervert the Constitution.

Abraham Lincoln

EDUCATION MATERIAL

April 1, 2022

Notifying Party:

We, the People of Big Bear
P.O. Box 1989 - 121
Big Bear Lake, CA 92315

Lisa Effron
41275 Big Bear Blvd.
Big Bear Lake, CA 92315

EDUCATIONAL MATERIAL

NOTICE TO AGENT IS NOTICE TO PRINCIPLES/AUTHORITY

To Whom It May Concern:

Within this letter you will now be informed of violations and unauthorized actions that are negligent and have serious consequences that could impact your future. Do not take this lightly. It is our sincere intent to get you in compliance with the Constitution of California (1849) and the Constitution of the United States of America. We, the People believe that you have been misdirected.

A **Notice of Liabilities** document/letter was sent Certified to the Bear Valley Unified School District on February 2, 2022. This letter was to inform the Superintendent Suzuki, and all school board members, Cathy Herrick, Susan Smartt, Paul Zamoyta, Stephens Foulkes, and Jack Roberts. Additionally, district staff Linda Rosado and Sue Nunes were also a part of this same Notice (See Attached).

State Violations

Violation of Your Oath of Office: You have sworn an oath to uphold the Constitution of the State of California (1849) and the Constitution of the United States of America. You have failed to uphold both of these constitutions. We live in America and are free to live our lives without restrictions, abuse and unlawful mandates from elected government officials. Mandates are not enforceable laws. As an elected public servant, you have no jurisdiction or authority to create or enforce mandates.

We, the People of Big Bear

Practicing Medicine Without a License – You and everyone employed by this district such as teachers and administrators have engaged in the practice of medicine without a license, which is a violation of state law. You enforced masks and you're recommending medical procedures, vaccination, with a wholly NON FDA approved product, that is licensed under an EUA. Meaning it's experimental and cannot be advertised at all, per federal law. And you have NON doctors recommending it to children – with NO informed consent. How can you give informed consent when the ingredients in these vaccinations won't even be released to the public until August 2022?

California Business & Professions Code 2052 makes it a crime to engage in the unauthorized practice of medicine without a valid license. This is defined as practicing, attempting to practice, or advertising oneself as practicing, any system of treating an illness or affliction. Prosecutors can charge this section as a misdemeanor or a felony and a conviction carries up to 3 years in jail.

This NOTICE is to inform you of your VIOLATION(S) of my CONSTITUTIONALLY PROTECTED RIGHTS (Article 4:2:1) or ANY OTHER RIGHTS, PRIVILEGES, OR IMMUNITIES that I may have and VIOLATION(S) OF DUE PROCESS OF LAW as is required by US Code, Statute, the Constitution for the united States of America and the California Constitution.

BE IT KNOWN that you are attempting to make law in the absence of due process of law by issuing "Ordinances," "Orders," "Mandates," and other statements that create a color of law but are not actual law and you DO NOT HAVE THE AUTHORITY TO DO SO. THEREFORE, you are PARTICIPATING IN A CONSPIRACY that is IN VIOLATION OF YOUR OATH OF OFFICE. As an Oath Sworn public servant you are governed by the Contracts established by Federal and California State Constitutions and Federal Codes and Statutes and all apply to you.

Be on Notice that YOU WILL BE HELD FULLY RESPONSIBLE AND PERSONALLY LIABLE for your actions under the pertinent US Codes (see attached schedule of fines) and Criminal and Civil Statutes, some of which are set forth in this NOTICE, but are not limited to this notice.

We, the People of Big Bear

Federal Violations

Abuse of Power: Color of Law or Color of Office: Section 1983 provides redress for constitutional violations committed “under color of” state law.² In *Monroe v. Pape*,³ the Court interpreted this phrase to include deprivations of constitutional rights caused by state officers acting either without authority or, what is much the same, in violation of state law.

In regard to requiring Proof of a Covid-19 Vaccination/Testing/Boosting/Masking for employees of Emergency Medical Services, Fire, Law Enforcement, Temporary Disaster Shelters, Dental Offices, Pharmacies, Students, Employers, Patrons, etc., this constitutes direct and constructive notice to you personally and to all your subordinates, and your or their replacements, successors, substitutes and agents. The purpose of this notice is to make you aware of violations of the law and allow you the due process right to correct them and restrict your actions to the limits placed upon you by the California State Constitution and the Constitution for the United States of America as well as case law including *County of Butler v. Governor Wolf*, Case 2:20-cv-00677-WSS 1 and *Home Building & Loan Assoc. v. Blaisdell*, 290 U.S. 398 (1934) 2 and *Ex Parte Milligan*, 71 U.S. 2 (1866).

Harmful-to-minors laws SB 17: prevents elementary and secondary schools and non-college/university libraries from raising a defense to the law-making it a felony to expose minors to “harmful” material. It also strips away protections for material that is disseminated for educational purposes. It lets parents sue to enforce this criminal statute and would also allow parents to use it if they object to any part of the school curriculum or material available in a school library.

The books you have purchased and display in your school’s library are harmful to minors and disseminated for educational purposes. Furthermore, the material you teach in the classroom conserving critical race theory (CRT) and LGBTQ+ have no place in public schools. Furthermore, holding gay rights parades and demanding children to declare they are transgender to participate is against the first amendment of the Constitution of the United States which you swore an oath of office to uphold and protect.

18 U.S. Code § 1470 – Transfer of obscene material to minors: Whoever, using the mail or any facility or means of interstate or foreign commerce, knowingly transfers obscene matter to another individual who has not attained the age of 16 years, knowing that such other individual has not attained the age of 16 years, or attempts to do so, shall be fined under this title, imprisoned not more than 10 years, or both.

We, the People of Big Bear

By willfully and knowingly purchasing material for children that is harmful, offensive, sexual orientated, and disgraceful to display in the library for children under the age of 18. Each member of this school board and the district teachers, and librarians have knowingly transferred this material to children under the age of 16. You deem this material appropriate for young children to read obscene material in our public schools.

42 U.S. Code § 1983 – Civil action for deprivation of rights: Every person who, under color of any statute, ordinance, regulation, custom, or usage, of any State or Territory or the District of Columbia, subjects, or causes to be subjected, any citizen of the United States or other person within the jurisdiction thereof to the deprivation of any rights, privileges, or immunities secured by the Constitution and laws, shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress, except that in any action brought against a judicial officer for an act or omission taken in such officer's judicial capacity, injunctive relief shall not be granted unless a declaratory decree was violated or declaratory relief was unavailable. For the purposes of this section, any Act of Congress applicable exclusively to the District of Columbia shall be a statute of the District of Columbia.

Any and all “COVID-19” “ordinances,” “policies,” “orders,” “required”, “compliance” or “mandates”, et al including those given by a Governor (violating a permanent injunction signed by Judge 11-13-20 and filed against him 11-18-20, his stay was denied) or State Health Officer or Board of Supervisors (Ordinances 4461, 4464) or County Health Officer and including but not limited to orders for mandatory vaccination, testing, tracking, or proof of “vaccination”, boosters and masking are not law and do not contain the force of law as they have not been passed by the State or Federal Legislature and further, no law created by any governing body that would require the People to consent to the violation of their natural, unalienable, Constitutionally protected rights can exist.

42 U.S. Code § 1985 – Conspiracy to interfere with civil rights: If two or more persons in any State or Territory conspire to prevent, by force, intimidation, or threat, any person from accepting or holding any office, trust, or place of confidence under the United States, or from discharging any duties thereof; or to induce by like means any officer of the United States to leave any State, district, or place, where his duties as an officer are required to be performed, or to injure him in his person or property on account of his lawful discharge of the duties of his office, or while engaged in the lawful discharge thereof, or to injure his property so as to molest, interrupt, hinder, or impede him in the discharge of his official duties.

We, the People of Big Bear

Superintendent Suzuki, along with your school board, has voted to uphold **unlawful** mandates that have interfered with the civil rights and abilities of the teachers and the principals, thereby preventing them from performing their duties. Superintendent Suzuki have placed restrictions on the schools and principals that force them to follow these unlawful mandates/requirements or be relieved of their duties. Principals and Teachers of the district have been coerced into accepting an experimental vaccine that is/was not FDA approved in order to continue their employment.

The “orders” or “mandates” of a governor, board of supervisors or agent or officer of the Centers for Disease Control (CDC) or for a city, county or state health department are **not law**, and public “policy” cannot be created that would **violate** the Due Process Rights or Liberty of the People. Therefore, enforcement of such mandates or health orders at any level is a **violation of the actual law** and you can be held personally liable for that violation.

3-307. Notice of breach of fiduciary duty: (1) “Fiduciary” means an agent, trustee, partner, corporate officer or director, or other representative owing a fiduciary duty with respect to an instrument.

(2) “Represented person” means the principal, beneficiary, partnership, corporation, or other person to whom the duty stated in paragraph (1) is owed.

The School Board has a fiduciary duty to **all the staff, children, and parents of this school district**. As an elected public servant, you have breached the duty to serve this community and uphold the constitution of the United States. Illegally mandating EUA (emergency use authorization) products from the FDA has violated the trust of your constituents in this district. The School Board was elected by the people to serve the people in a lawful manner outlined in the Constitutions of the State of California (1849) and the United States of America.

Federal law, Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act: Emergency dispensing – The requirements of subsections (b) and (f) of section 353, section 354, and section 360j(e) of this title shall not apply to an eligible product, and the product shall not be considered an unapproved product (as defined in section 360bbb-3(a)(2)(A) of this title) and shall not be deemed adulterated or misbranded under this chapter because it is dispensed without an individual prescription.

Any product that is not deemed FDA approved cannot be enforced or mandated. masks, PCR testing and vaccines are under EUA (emergency use authorization) use only and it is illegal for any Federal or State government to mandate such items. Furthermore, you and your school board members do not have the authority to mandate EUA products.

We, the People of Big Bear

Title VII of the 1964 Civil Rights Act: To enforce the constitutional right to vote, to confer jurisdiction upon the district courts of the United States to provide injunctive relief against discrimination in public accommodations, to authorize the attorney General to institute suits to protect constitutional rights in public facilities and public education, to extend the Commission on Civil Rights, to prevent discrimination in federally assisted programs, to establish a Commission on Equal Employment Opportunity, and for other purposes.

Illegally creating and/or enforcing policies on minors in order to attend school violates their civil right to attend school as citizens of the United States of America. Restricting children's freedoms and forcing them to wear a mask that is dangerous and has no concrete scientific backing is in direct violation of their civil rights.

Drafting ordinances that falsely reflect the authority of the CDC or an appointed public servant within state agencies that lack direct accountability to the people violates at minimum Article 1, Sections 1, 2, 3, 4, 8, 9, 10, 11 and 19 of the California State Constitution as well as the First, Fourth and Fifth Amendments to the Constitution for the united States of America. To be clear, the People have waived none of our rights and do not consent to any ordinances that **violate** any of our natural, inalienable, constitutionally protected and secured rights or any other rights that we may have.

The Individuals with Disabilities Act (IDEA): Every child is entitled to a free and appropriate public education (FAPE). When a school professional believes that a student between the ages of 3 and 21 may have a disability that has substantial impact on the student's learning or behavior, the student is entitled to an evaluation in all areas related to the suspected disability. Creation of an Individualized Education Plan (IEP)

Many children that attend classes within the School District have disabilities. It is against the law to enforce the use of masks on these children. Many children with disabilities cannot safely wear a mask. The toolkit states individuals who cannot safely wear a mask are exempt; however, you, and your school board, have not adhered to this. Conversely, you have demanded that all children attending school wear a mask.

COL (Color of Law): Section 242 of Title 18: Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments,

We, the People of Big Bear

pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death.

If even one child is harmed, injured, or dies as a result of mask requirements, PCR testing, or receiving a vaccine as a result of your coercion, Superintendent Suzuki and the entire school board members and staff are liable for all injuries.

YOU ARE ALSO HEREBY WARNED that you will lose any “immunity” and be held fully responsible and personally liable for any unlawful actions which violate any of our Rights (including any fees or fines for damages which result from any violations pursuant to U.S.C. Title 18, Sections 241-242 and U.S.C. Title 42, Section 1983).

International Violations

Intentional Disregard to the Dangers of Face Coverings: Masks can cause severe acne and other skin problems. The discomfort of a mask distracts some children from learning. By increasing airway resistance during exhalation, masks can lead to increased levels of carbon dioxide in the blood. Masks can be vectors for pathogens if they become moist or are used for too long. The use of masks has been proven to exacerbate anxiety or breathing difficulties for some students. School staff are not monitoring for any of the above conditions.

Protection of Children in International Humanitarian Law 30-06-1984 Article: International humanitarian law provides general protection for children as persons taking no part in hostilities, and special protection as persons who are particularly vulnerable. Moreover, children taking part in hostilities are also protected. The various aspects of the legal protection of children as members of the civilian population.

Our children are protected under this international treaty because we are now living in a hostile environment and our children are particularly vulnerable to what is taking place around the world. Enforcing mask policy on young children is in violation of this international treaty.

We, the People of Big Bear

Furthermore, exposing young children to obscene material, CRT, and the LGBTQ+ is dangerous for a child. This Protection of Children in International Humanitarian Law is in place to protect our children against such policy/enforcement and coerced testing or educational materials.

The Hague Conference on Private International Law: The Hague Conference on Private International Law (HCCH) is a global inter-governmental organization that has developed standards for the transnational cooperation on child protection and family matters. The key themes addressed by the Conventions of the Hague Conference include transnational child protection, inter-country adoption, cross-border parental child abduction as well as matters of parental responsibility and contact involving different countries.

The HCCH protects our children and their families against abuse inflicted upon them from a public school system. Our children are to be protected in our home and when attending public schools. Your failure to protect our children is in direct violation of the Private International Law HCCH.

UN Child Protection: By virtue of Security Council resolutions 1539 (2004) and 1612 (2005), which request that action plans and dialogue for their development be established, United Nations child protection advisers and teams are mandated – and have the political space – to engage with all state and non-state armed actors involved in grave violations against children. CPAs foresee and diligently plan opportunities for engaging with parties to the conflict on child protection matters.

Our public-school systems have become a hostile environment for our children. The school board has enforced **illegal mask policies**, allowed offensive material to enter the school system, and has instructed the teachers to teach critical race theory (CRT) (aka SEL) as part of the educational system. The UN protects our children, and the United States of America has signed a treaty with the UN in order to ensure our children are protected at home and in our public schools.

International Humanitarian Law: Persons who are not, or are no longer, participating in hostilities must be protected; and the right of parties to an armed conflict to choose methods and means of warfare is not unlimited.

Our children are not now, nor have ever been, involved in direct hostilities in order to conquer an illness that has a 99.8% survival rate. Our children are protected under the International Humanitarian Law and must be protected at all costs. Demanding and/or mandating EUA masks and PCR testing in a public school system does not protect our children and their rights to freedom of education and life.

UNESCO Universal Bioethics Declaration: The first principle advocated in the UDBHR is respect for “human dignity, human rights and fundamental freedoms” (Article 3). Although this

We, the People of Big Bear

principle had long been established since the 1948 Universal Declaration of Human Rights (United Nations 1948), which is today widely regarded as the cornerstone of the international human rights system that emerged after the Second World War, the UDBHR was the first international instrument to comprehensively integrate international human rights law into the field of biomedicine. By broadening the scope of the respect principle from personal autonomy to human dignity, the UDBHR overcomes a shortcoming of previous bioethics documents, which seemed to accord respect only to autonomous persons.

This law and treaty are still in effect today and protects our children's right to human dignity, human rights and fundamental freedoms. Masking our children takes away their human rights in society to live freely and express themselves. Furthermore, demanding our children to declare they are transgender is in direct violation of international human rights.

Geneva Declaration of the Rights of the Child: Every child has the right to health, education and protection, and every society has a stake in expanding children's opportunities in life. Yet, around the world, millions of children are denied a fair chance for no reason other than the country, gender or circumstances into which they are born.

The school board's mandates are endangering the health of our children. We are no longer able to protect our children when they attend public school. The school system now is based on CRT and offensive material that is brought in by this board and distributed throughout the schools in this district. Your school board is distributing offensive material and pushing the LGBTQ+ agenda in schools. You and your school board members are in direct violation of the Geneva Declaration, which is an international treaty that protects our children's right to health and an education.

The Nuremberg Code: "Everyone has the right to life, liberty and security of person... No one shall be subjected to ... inhuman or degrading treatment ... Everyone is entitled in full equality to a fair and public hearing by an independent and impartial tribunal, in the determination of his rights... No one shall be subjected to arbitrary interference with his privacy, family, home or correspondence..."

The Right to Informed Consent is Meaningless Without the Right to Refuse Any Medical Intervention, Including Mandated Vaccination. Government Agents and those Acting Under Color of Law are Forbidden by Long-Standing National and International Law from Coercing Vaccination. Furthermore, this includes mask mandates and PCR testing. Children under the age

We, the People of Big Bear

of eighteen years of age need a parent's signature on any and all documents that deal with medical testing and this includes PCR testing in school.

This right to refuse experimental medical devices implements the internationally agreed legal requirement of Informed Consent established in the Nuremberg Code of 1947. As the Nuremberg Code established, every person must "be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision" for any medical experimental product, as the masks currently are. The Nuremberg Code prohibited even the military from requiring such experimental vaccines. (*Doe #1 v. Rumsfeld*, 297 F.Supp.2d 119 (D.D.C. 2003).

Demanding employees, students, and parents divulge their personal medical information invades their protected right to privacy and discriminates against them based on their perceived medical status, in contravention of the Americans with Disabilities Act. (42 USC §12112(a).) Requiring me or my private property to wear a face covering as a visible symbol of my vaccination status reveals my personal medical information and opens me to harassment, discrimination, or censure.

The county superintendent, the superintendent of school and the school board are in violations of state, federal and international laws. They were not appointed or elected by the public to rule and control over us like a dictator. They instructed the principals, teachers and staff to violate their Oath to protect the rights of those they serve. They were voted in to serve us and protect us. You have failed your duties as an elected and appointed government official when you stepped outside the boundaries of the law of this state and started mandating illegal and immoral mandates that affect the lives of all teachers and students in the county school system.

Furthermore, you are not medical doctors and have no idea the long-term effects that masks, PCR tests and experimental vaccines have on the health of children or staff members of the county. You have single handedly decided that you are the new authority of health and wellness of all students and staff members in the schools. On top of this you are taking your marching orders from the CDC which has no jurisdiction in our state and cannot recommend use of EUA masks, test, and vaccines for student and staff members. All injuries to student and staff members is your responsibility and you will be liable for all damages caused by these mandate you wish to enforce in our schools.

We, the People of Big Bear

A BOND CLAIM MAY BE FILED AGAINST YOUR SURETY LIABILITY INSURANCE POLICY IF THIS ABUSE MANDATES DO NOT STOP TODAY

Total Amount Owed to Notifying Party: \$379,260,000.00

18 USC 666 OBSTRUCTING AND DELAYING COMMERCE and unlawfully taking and obtaining personal property under fear of threat	10 years in prison minimum	
18 USC 1951 "Hobbs Act" GENOCIDE	\$1,000,000.00	
18 USC 1091 TREASON (combined actions above) and allowing unelected	and \$250,000.00	
18 USC 3571 Page 7 of 16 unaccountable agencies and agents to dictate and shape policy that violates due process rights	\$250,000.00	18 USC 3571

This notice is provided to inform you that the Notifying Party has provided the above descriptions of the unconstitutional and illegal actions that have endangered the health of our children attending this school district. Furthermore, the CRT and LGBTQ+ is inappropriate material to be taught in any school. It incites violence and causes extremely suicide tendencies in your children. If these illegal mandates do not stop today, We, the people, will seek damages for the full amount listed above.

We, the People of Big Bear

If this action does not stop today, the Notifying Party will file a claim against your Insurance/Bond company. You have (7) business days upon receipt of this notice, to correct these violations at all the schools in the Bear Valley Unified School District.

This includes the following:

Stop coercing all forms of Covid-19 propaganda concerning how dangerous by this inaccurate promotion towards our parents and our grandparents. (Children survival rate is 99.8%)

Stop liable language coercing and intimidating, "that all children should want to save their lives" by getting the vaccine.

Children cannot choose for themselves; this is strictly the parent's responsibility and right.

All vaccine clinics on school grounds are be forbidden.

Cease coercion and pushing CRT, transgender, Gay Rights week, demanding children to declare if they are transgender to participate in school activities.

Halt all enforcement of policies that require universal masking/masking without parental consent. This includes forcing vaccines on teachers and masking the teachers of the district.

Remove all obscene books and material from the public school system immediately.

Remove all boys from the girl's locker rooms and bathrooms.

Require all principals, teachers, and staff to revisit their official compulsory document, their Oath, signed under penalty and perjury.

Require all principals, teachers, and staff to be educated regarding the power of our rights given to us by God protected by united States Constitution and the legal ramifications of violating their Oath.

Parents must have a right to vote on the educational material that is being taught in our schools. Additionally, we have a right to peruse, examine and approve or disapprove of all material that the school board would like to introduce into the schools. You were hired to serve the public and represent parents' wants for their children.

We, the People are alarmed that we are the ones researching and establishing "truth" for this community, our children, our families and our neighbors.

We, the People have asked the superintendent and school board why we have this, "obvious" important information and facts and they don't? No response from the superintendent or the school board. It is blatant disrespect for our parents, grandparents and community, all those they serve.

We, the People of Big Bear

We the People require you to make yourselves accountable for the research to empower you on the various violations and misuse of authority of those that administer policies.

We, the People are aware of the principals and teachers that continue to bully, abuse, and segregate the children/students. This is violation of rights. Your actions have been noted and recorded. This goes against Education Rule of Conduct Responsibilities, Title 5, Section 80331-80338. You are herein being told to “stop” or resign your position and be held accountable.

We, the People are requiring you to get educated on your Oath and the penalties that are attached to your absence of knowledge.

We, the People require you to get in compliance with your Oath and the rights of the children/students that you teach.

We the People are informing you that your duties must be in compliance with your accreditation, the Constitution of the State of California and the Constitution of the United States to avoid being held personally liable for violations. Notice to agent is Notice to Principle/Authority.

We, the People do not consent so we must abate these wrongful actions that you’ve been committing against the people here.

Failure to comply with the aforementioned demands within (7) business days after receiving this notice will result in a claim being filed against the Insurance/ Bond Company –for the full amount of the coverage. Furthermore, we will follow through and file in Federal Court a COL against you.

We, the People may suggest that **you question everything to seek and find truth.**

Protect yourself while protecting We, the people.

Informed Notice,

We, the People of Big Bear
