

# IN AMERICA

*The people govern, the people rule and the people are sovereign. I was elected not to take power but to give power to the American People where it belongs.*  
- Trump

*The problem is that the People don't know how to take and implement that power!*

*I know no safe depository of the ultimate powers of the society but the people themselves; and if we think them not enlightened enough to exercise their control with a whole-some of discretion by education. This is the true corrective of abuses of constitutional power .....*

*....if a nation expects to be ignorant and free in a state of civilization, it expects what never was and never will be.....*

*....An enlightened citizenry is indispensable for the proper functioning of a republic.....*

***Self- government** is not possible unless the citizens are educated sufficiently to enable them to exercise oversight. It is therefore imperative that the nation see to it that a suitable education be provided for all its citizens.*

***Education** and inform the whole mass of the people. They are the **ONLY** sure reliance for the preservation of our **LIBERTY**.*

***If the people expects** to be ignorant and free they expect what never was and never will be and we in America do not have government by majority. We have government by the majority who participate.*

- Thomas Jefferson
