

FROM THE DESK OF CINDY DUPRE, Msc.D., Ph.D.

September 16, 2021

Good Day –

This package of Educational Material is being provided you, as a respected leader, of our community.

My hope is that you will find this information insightful and worthy. As a leader of your congregation, your ability to intertwine the foundation of this country with the established "Gods given rights" protected by our U.S. Constitution would be a blessing to many as the foundation of our country was built with the fabric of good, honest, loving, trusting, hard working people "We the People". Our forefathers love for God and country provided the pillars that made this country strong.

One of the greatest gifts that could be given to this community's future would be providing the history of our great country's foundation. It would serve, as a reminder, of the amazing "just" men and women that walked this land before us. It was their faith, love for their neighbors and their communities that drove their desire to reach higher and further.

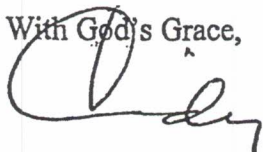

What is transpiring now in our world, our country, and our communities is Biblical!

We have lost our way, as we do not know who we are or how to really contribute! We are up against principalities that are challenging us at every corner. The time is now more than ever to be reminded of God's presence and God's promise to all of us! We can be a voice for the voiceless, it only takes one seed!

It is the love that I have for my country, my community, and my neighbors to do my part by returning education that has been omitted (I believe intentionally) from our educational system and therefore forgotten throughout this great country. May I ask how much do you know about our Gods given rights "to be free" to life, to liberties and the pursuit of happiness? Knowing our God given rights is not to be underestimated! God gave us these rights and he is the only one that can take them away!

Thank you for your time and I will pray that you will be one of many to water this seed!

With God's Grace,

NOTE: SENT TO PASTORS WITH
107 PAGE DOCUMENT REGARDING
OUR RIGHTS AS GOD'S CHILDREN.
